

BUSINESS PHOTOGRAPHY & DRONE CONTENT

Your business. From a better perspective.

Professional ground and aerial photography for local businesses across Caerphilly and South Wales. From premises and storefronts to products, vehicles, machinery and the people behind your business, JW Business Digital creates polished imagery ready for websites, social media and advertising.

Premises & storefronts

Aerial business photography

Vehicles & machinery

Products & equipment

Website imagery

Social media content

Business Content Package

£349 standalone

A complete professional photography and drone content session for businesses that want stronger marketing imagery without purchasing a website.

Website Visual Upgrade

£199 website-client bolt-on

An exclusive add-on for JW Business Digital website customers, focused on creating exactly the imagery needed for the new website and ongoing marketing.

PACKAGE 1

Business Content Package - £349

A premium standalone service for businesses that want a complete bank of professional visual content.

WHAT IS INCLUDED

- Up to 60-90 minutes on location.
- Professional ground-level business photography.
- Drone aerial photography where safe, legal and permitted.
- Premises, frontage and exterior angles.
- Products, equipment, machinery, vehicles or other items you want to advertise.
- Approximately 20-30 professionally edited final photographs.
- High-resolution files plus web and social-media optimised versions.
- Commercial usage for your own website, social media and marketing.
- Digital delivery with a target turnaround of 3-5 working days.

IDEAL FOR

- Trades and contractors
- Garages and vehicle businesses
- Retail and hospitality
- Workshops and manufacturers
- Property and premises-based businesses
- Local companies refreshing their brand or social media

OPTIONAL EXTRAS

- Drone-only photography - from £149
- Short promotional video or social reel - from £100
- Additional photography time - from £75 per hour
- Priority editing - from £49

WHY £349?

The price is positioned between lower-cost property/drone packages and higher-end commercial photography. Current South Wales/Cardiff examples include property packages from around £149-£299, commercial business sessions around £299+, and dedicated aerial or commercial creative fees commonly starting around £200-£400 before broader licensing or production costs. That makes £349 competitive for a combined business photography + drone content package.

PACKAGE 2

Website Visual Upgrade - £199

Available only when purchased with a JW Business Digital website. This is an exclusive website-client price, not a discounted standalone package.

WHAT IS INCLUDED

- A shorter targeted on-site session planned around the new website.
- Professional ground photography of the business, premises, products, vehicles or equipment.
- Drone images where practical, safe and permitted.
- Approximately 12-20 professionally edited final photographs.
- High-resolution originals and web-ready versions.
- Digital delivery for website and social-media use.
- Commercial usage for your own business marketing.

WHY ADD IT TO YOUR WEBSITE?

- Your new site uses real images of your own business rather than generic stock photography.
- Photography can be planned around the exact sections and layouts being built.
- One supplier coordinates the website and the visual content.
- You receive a reusable library of images for social media and future marketing.

EXAMPLE COMBINATION

£299 website + £199 visual upgrade

£498 upfront

DRONE AVAILABILITY & PRACTICAL CONDITIONS

Drone photography is subject to suitable weather, location, airspace, access, property or landowner permission, people on site and applicable flight restrictions. If a flight cannot be completed safely or legally, JW Business Digital will agree an alternative date or suitable ground-based photography solution. Commercial drone work will be planned around the appropriate operator/flyer requirements, insurance and local operating conditions.
